PLENARY PRESENTATION

The Need to Innovate: Celebrate the Past....Look to the Future	1
<i>D. Fragomeni – Director XPS Consulting and Testwork Services</i>	

COMMINUTION

Fine Grinding, A Refresher	2
<i>A.G. Doll</i>	
Two-Mass Vibrating Screens for High Tonnage Applications	12
<i>E. Wipf, S. Massman, G. Beerkircher</i>	
Breaking Down Energy Consumption in Industrial Grinding Mills	25
<i>J. Bouchard, G. LeBlanc, M. Levesque, P. Radziszewski, D. Georges-Filteau</i>	
Rubber Liners in the Service of Large Diameter Ball Mill at Hudbay, Constanca Mine, Peru	36
<i>R. Rajamani, J.A. Delgadillo, P. Kumar, M. Hurley, H. Granados, M. Sanchez, M. Medina</i>	
Honeywell Multivariable Predictive Control Implementation in the Goldex Grinding Circuit	47
<i>K. Frenette, R.K. Jonas, S. Simard, F. Robichaud, M.R. Dion</i>	
Grinding Circuit Final Control at Agnico Eagle Meadowbank Mine	60
<i>P. Muteb, K. Leetmaa, I. Gabric, K. Darby, T. Strombotne</i>	
Comminution Circuit Design Considerations	74
<i>G. Lane, B. Foggatto, R. Braun, M.P. Bueno, P. Staples, S. Rivard</i>	
Use of Functional Performance Models to Increase Plant Grinding Efficiency	86
<i>R.E. McIvor, K.M. Bartholomew, O.M. Arafat, J.A. Finch</i>	
Technical Review and Evaluation of Ore Sorting Technology Incorporating Results from Four Properties	99
<i>B. Hilscher, P. Nayak, N. Yoon</i>	
Spiral Surface Property Investigation	113
<i>F. Bornman, W. Erasmus, X. Louw</i>	
Flash Flotation Circuit Design Considerations	121
<i>J.L. Heat, B. Murphy</i>	

OPERATIONS

Design, Construction and Commissioning of Gold Tailings Plant at Mazowe Mine, Zimbabwe	132
<i>A.M. Bantshi, P. Makuvise</i>	
An Update on Reaching Nameplate Throughput and Continuous Improvement at Mount Milligan	142
<i>J. Yue</i>	
Processing Plant Expansion at Kittila Mine Affords Opportunity for Significant Material Handling Improvement	150
<i>T. Holmes, J. Middlemiss</i>	
Goldcorp's Peñasquito Pyrite Leach Project	165
<i>S. Hille</i>	
The Effect of Choke Feeding a Gyratory Crusher on Throughput and Product Size	166
<i>J.-F. Dupont, J. McMullen, D. Rose</i>	
Investigating the Potential of HydroFloat™ Coarse Particle Flotation Techniques on Copper Sulphide Ores	176
<i>P.J. Mehrfert</i>	

FLOTATION

Improving Concentrate Grade through Smart Design and Piloting	183
<i>V. Lawson, G. Anderson, T. Strong</i>	
Online Elemental Analysis of Slurry using Laser-Induced Breakdown Spectroscopy	194
<i>L. Koresaar, J. Timperi, T. Balbin, V. Astakhov</i>	
The Removal of Iron-Bearing Silicate Minerals from a Hard Rock Lithium Ore	205
<i>C. Gibson, M. Aghamirian, T. Gammatikopoulos</i>	
Improvement of Valuable Mineral Transport and Gangue Drainage in Froth Flotation	216
<i>B. Levasseur, N. Ouellet, A. Lockhart, G. Couture, D. Nathan, G. Bartolacci</i>	
Linking Flotation Efficiency to Bubble Size	227
<i>J.R. Hernandez-Aguilar</i>	
Rejection of Uranium from a Copper Gold Ore by Flotation	243
<i>M. Xu1, J. Dong, F. Ford</i>	
Economic Recovery and Upgrade of Metals from Middling and Tailing Streams	254
<i>P. Voigt, M. Hourn, V. Lawson, G. Anderson, D. Mallah</i>	

GOLD

Anaconda Mining Inc.’s Point Rousse Project Cyanide Destruction System Development Study	264
<i>A. Cramm, C. Budgell, L. Cheung, N. Roux</i>	
Demonstration Campaign Results on a Cyanide-Free Process for Gold Extraction from Refractory Pyrite Concentrate	273
<i>D. Lemieux, A. Drouin, J.-M. Lalancette, C. Chouinard</i>	
Red Lake Gold Mine Autoclave Optimization Project	286
<i>K.K. Murray, D.G. Gelderland</i>	
A New Method for the Stabilization of Arsenic from Enargite Concentrates	296
<i>G.G. Curiel, R. Barbaroux, K. Nasrallah, J.-M. Lalancette, D. Lemieux, B. Dubreuil</i>	
Economic Evaluation of Activated Carbon for Gold Milling Circuits	305
<i>Z. Yamak, M. Somppi, M. Drozd</i>	
Selecting the Correct Cyanide Destruction Process for Your Operation	320
<i>Nacu, R. Agius</i>	
Selecting the Number of Increments for Daily Metallurgical Samples: Application to Goldcorp Eleonore Gold Ore Concentrator, Quebec, Canada	326
<i>C. Bazin, J. Lamontagne</i>	
Assessing the Total Cost of Representativity in Flotation Plants	337
<i>L. Lachance, D. Brand</i>	
Evaluating the Applicability of Gold Pre-Concentration by Sensor Based Sorting of Quartz Ore	349
<i>J. Rohleder, B. Nielson, H. Lehto, A. Takala, J. Schunicht</i>	
Enhanced Gravity Recovery of Base Metal and Industrial Minerals	362
<i>I. Grewal, A. Neale</i>	
Update of Canadian Rare Earths Projects and Technological Trends	374
<i>M.E. Sauber, J. Zinck</i>	
Design, Commissioning, and Operation of a Heavy Rare Earth Separation Pilot Plant	390
<i>J. Zhang, B. Zhao, Y. Tang</i>
